SINGAPORE PRIVATE TRUST COMPANIES

- > PTCs are popular with ultra-high net worth families who wish to retain control of the management of the family trust(s), which can be achieved by appointing members of the settlor's family or his advisors to the board of directors of the PTC. The settlor or his advisors are strongly encouraged to put in place proper governance and succession planning of the board to ensure wealth preservation, if not enhancement, for the succeeding generations.
- > A Singapore PTC is exempted from the requirement to hold a trust business licence. This exemption is built on the principle that the Singapore PTC only provides trust services to the family trust and its related trust(s) and that it does not solicit trust business from, or provide trust services to the public.
- > A Singapore PTC adopts the form and substance of a Singapore company. Please refer to the key facts on Singapore companies for details.
- > In addition to the statutory requirements imposed on a Singapore company, a Singapore PTC is required to engage a licensed trust company to carry out trust administration services for the purposes of conducting the necessary checks to comply with any written direction issued by MAS on the prevention of money laundering or countering the financing of terrorism.
