

United Kingdom

Our global team is able to offer a broad range of real estate services, including the establishment and administration of holding structures, banking and cash management services, transaction support and specialist fund administration services.

Why the United Kingdom?

The United Kingdom, particularly London, remains a desirable place to purchase property, for both residential and investment purposes. We offer a number of bespoke services to purchasers of UK properties, providing time and cost-efficient support for both property acquisitions and ongoing management.

Pre-Acquisition Services

- Property identification — introducing purchasers to specialist estate agents and shortlisting properties for viewing based upon agreed requirements.
- Legal assistance — we work with specialist property solicitors to handle all legal aspects of the purchase process and any subsequent legal matters.
- Ownership structures — with the help of qualified professionals we can assist in the establishment of a holding structure for the purchase of UK property.

Property Management Services

- Cleaning services — we can arrange for professional cleaners to ensure the highest standards are maintained at the premises.
- Letting management — we can liaise with letting agencies to secure tenants for the property, negotiate rental rates and contractual terms, and also handle any subsequent day-to-day administrative matters.
- Maintenance — if the property is vacant for a period of time, we can visit to check that everything is in order and appoint third-party contractors to rectify any problems that may occur.
- Utilities payments — we can arrange for post to be collected from the property and for utility bills to be settled.
- Company administration — should the property have been purchased through a company we can assist with its day-to-day administration, compliance and accounting matters to ensure all statutory requirements are met.
