BENEFITS OF A DOMESTIC SRL

- > The use of a Domestic SRL can be an effective vehicle for international planning as it has no business restrictions.
- > A Domestic SRL is eligible for tax treaty benefits and can apply all provisions of a double tax agreement.
- > It is taxed on profits and gains worldwide but is eligible for a tax credit in respect of foreign taxes paid abroad, which has the effect of potentially reducing the tax payable to not less than 1% on taxable income. A Domestic SRL is taxed at 9%.
- > It can conduct business with residents of Barbados.
- > The approval of the Central Bank of Barbados is required for the issue or transfer of quotas to a non-resident quota holder, unless the SRL holds an FCP.
- > Payment for quotas issued to a non-resident quota holder must be received in Barbados and registered with the Central Bank of Barbados, unless the SRL holds an FCP, in which case, payment for the quotas can be deposited in a bank account located outside of Barbados.
- > There are no minimum capital requirements or “thin-capitalisation” rules.
- > It is entitled to apply for the grant of an FCP where the society earns 100% of its income in foreign currency, which allows it to benefit from exchange control exemptions.
